Data Communications and Network; Principles of Computer; Data Structures and Algorithm Analysis; Software Engineering; Cryptography; Database Management Systems; Operating Systems; Network Security; Operating Systems Security; Object-Oriented Design

WORK EXPERIENCE

Customer Networks Intern, Hughes Network Systems, LLC, Germantown, MD

6/19 – 8/19

- During my tenure at Hughes, I gained a deeper understanding of satellite internet and associated concepts. I also expanded upon my understanding of secure networks, specifically VPN and IPSec, and firewalls including how traffic is handled and dealt with the white and blacklist.
- I gathered data from various team members and stakeholders on devices and their applicability in store settings. Through the data gathering and analysis, I was able to gain a better understanding of the store level network diagram as it relates to the devices.
- Analyzed and organized numerous customer traffic by source and destination.
- Managed Firewall Policies document with attention to configuration control
- Created and executed procedures for port forwarding(1).

Security Intern, Sandy Spring Bank Operations Center, Columbia, MD

6/18 – 8/18

- Contributed to the Corporate Security Department in its daily processes.
- Managed the on-boarding of a new case management system, indexing cases, reports, and data from the legacy case management platform into bank operating systems.
- Contributed to daily security processes, completing invoices, handling calls to support other internal departments and vendors. Utilized advanced computer Microsoft Office (Word, Outlook, PowerPoint and Excel) skills and experience.
